Features & Benefits

- A durable, lightweight solution for securely stacking nestable pallet loads
- Optimizes the available trailer and warehouse space; Stack nestable pallets two high to better utilize available warehouse space and trailer capacity
- Stackers nest neatly for backhauls and empty storage
- Protects products and secures loads; Stacker distributes the weight of the top pallet across the bottom pallet and positions the load for stable transit
- Seamless integration and compatibility; Stacking indents capture a variety of leg configurations
- Ergonomic handles and very light weight make lifting and stacking easier and safer
- Flat bottom allows smooth travel along conveyors
- Made from recycled HMWPE plastic and is 100% recyclable

Options

- Colors: choice of standard or optional non-heavy metal (NHM) or FDA approved colors
- Tracking: recessed areas for bar code labels or RFID tags
- Decoration: Molded-in logos available
