Features & Benefits

- High-pressure injection molded using a proprietary blend of high density polyethylene and co-polymer polypropylene for superior durability, impact resistance, and performance
- Pallets do not absorb moisture or bacteria and their appearance is more attractive for retail applications than wooden pallets.
- Tapered bottom edges on all sides allow easy four-way entry and exit for pallet jacks and fork lifts.
- Full picture frame and cruciform bottom work smoothly with automated pallet handling equipment.
- Absence of any metal fasteners and splinters means no parts that can protrude and damage products or cause injury.
- Rugged and lightweight, they are easier to handle than comparable wood or other plastic pallets.
- 2-piece, Snap-Lock™ allows for quick and easy repair while reducing damage from pallet jacks thus offering substantially longer life .
- Comprehensive warranty
