

Features & Benefits

- High-pressure injection molded plastic pallets are made from co-polymer polypropylene resin that will not absorb moisture or bacteria and their appearance is more attractive for retail applications than wooden pallets.
- Roughened top deck reduces slippage and helps keep loads in place.
- Full picture frame and cruciform bottom work smoothly with automated pallet handling equipment.
- Tapered bottom edges on all sides allow easy four-way entry and exit for pallet jacks and fork lifts.
- Absence of any metal fasteners and splinters means no parts that can protrude and damage products or cause injury.
- Rugged and lightweight, they are easier to handle than comparable wood or other plastic pallets.
- 2-piece, Snap-Lock™ allows for quick and easy repair while reducing damage from pallet jacks thus offering substantially longer life.
- High-pressure injection molding allows Rehrig Pacific designers to strategically vary wall thickness to achieve lighter yet stronger plastic pallets when compared to other molding processes.

SPECIFICATIONS	IN/LB	MM/KG
Length (L)	48.0	1,220
Width (W)	40.0	1,016
Height (H)	6.0	152
Overall Fork Pocket Width (W1)	30.0	762
Individual Fork Pocket Width (W2)	12.0	304.8
Overall Fork Pocket Length (L1)	30.0	762
Individual Fork Pocket Length (L2)	12.0	304.8
Fork Pocket Height (H1)	3.5	88.9
Weight	44.2	20.0
Edge Rack Capability	2,000	907.18
Dynamic Load Rating	4,000	1,814.37
Static Load Rating	10,000	4,535.92
53' Trailer Quantity	540	

DECORATION AREAS	WIDTH (IN)	HEIGHT (IN)
Brand, Barcode or RFID Area (B1)	3.75	2.63

Options

- Colors: Choice of standard or optional non-heavy metal (NHM) or FDA approved colors
- Decoration: Hot-stamp branded logos
- Edge lip: Corner edge lips available
- Material: UL® listed flame retardant resin available
- RFID compatible, works with Vision™ Software solution

Alternative Material for Sustainability

- PCR - RPC Circular Plastic Economy, Automotive Bumpers, Cart Seats
- PIR - RPC Mfg Scrap
