

The leader in end to end environmental solutions.

Rehrig Pacific is the leading manufacturing partner to the waste and recycling industry providing a complete end-to-end solution.

core We manufacture sustainable injection molded residential roll-out carts, recycling bins, and industrial containers at our eight plants across North America.

vision We offer a technology solution to improve visibility for collections, routing, work orders and inventory management.

services Our best-in-class service team helps our customers focus on their core business while we manage their Assembly and Distribution, as well as a complete Cart Maintenance program.

Working together, all these solutions provide long-term sustainable benefits.

Leaders in sustainable cart manufacturing

Our line of sustainable smart carts is the result of Rehrig Pacific's unique manufacturing expertise: We've developed a first-of-its-kind process that allows us to combine virgin plastic with unmatched volumes of recycled material. The result is a product that contains more recycled material than previously thought possible, without compromising the structural integrity or desired brand appearance of the final product.

Industrial Container Tracking

Fleet Management & Driver Performance

With you for the long haul

Our Environmental services team provides in the field support for your toughest jobs. From assembly and distribution to container management and maintenance, we handle it all so you can focus on your core business.

Assembly & Distribution:

Our Assembly and Distribution (A&D) teams load the carts onto our trailers and deliver them to individual customers within your municipality or service area. We have successfully managed A&D projects with up to half a million carts. Using our Vision® software, each cart is scanned to verify delivery accuracy for maximum efficiency and customer satisfaction.

Container Management:

Let us manage the repair and maintenance of all roll-out carts in your service area. Our local field service team responds and completes all work in a timely manor, repairing parts in the field or bringing them back for replacement. Ensuring that your carts stay in service for the longest time possible before returning to us to be made into new carts in the future.

Other Services:

- Reclaim / Cart Removal
- RFID Retrofitting Services
- Route Auditing
- Yard Cleanups
- Mailers
- Mobile Washing Programs
- Certified Contract Daily Labor
